

## ENVIRONMENTAL POLICY STATEMENT

Access Inspection Maintenance Ltd recognises the importance of reducing as much as possible its impact on the environment because of its day-to-day operational activities. We believe that environmental sustainability can be achieved by observing good institutional practice as well as being committed to our legal obligations. AIM Ltd is aware of both its social and legal obligations regarding environmental sustainability and therefore, is totally committed to sustainable development.

The company is committed to continual improvement on environmental issues where economically feasible.

The company will minimise the production of waste where possible and any disposal of waste products produced will be carried out in accordance with the Waste Regulations (Scotland) 2012.

Our vehicles will be made as fuel-efficient as possible.

Due to the nature of the business and fast-moving technology within the industry, the company will wherever possible recycle and reuse materials. The use of land fill as a method of waste disposal is to be considered the last resort.

*There are four areas in which we will positively influence environmental awareness and compliance:*

- In support of our core activities, we will ensure that our process for procuring consumable supplies maximise the use of biodegradable fluids and sustainable raw materials, those that can be re-cycled and those that have already been re-cycled
- We will ensure that our process for disposing of all waste materials allow compliance with applicable legislation / duty of care obligations and maximise the possibility for the segregation of waste that can be re-cycled from that which can't
- We will maximise the efficiency of our use of consumed energy through the adoption of an efficient transport policy for our personnel and the control of the use of our electrical supplies and consumables at our premises
- We will promote the highest standards of environmental excellence in customer organisations by matching our project environmental controls with the policies of our customers

AIM Ltd will:

- Encourage and promote best practice and continual improvement in environmental performance.
- Commit to the prevention of environmental pollution in relation to our activities
- Provide information and assistance to ensure that materials are used, stored and disposed of in a safe and environmentally responsible manner.
- Setting & monitoring environmental objectives across the business, aimed at continuous improvement in environmental performance
- Promote the open exchange of environmental information with customers and suppliers.
- Provide appropriate environmental training where necessary.
- Comply with the requirements of our customer's environmental policies.
- Ensure efficient off-site disposal or re-use of waste materials.
- Maintain a high standard of client and delegate awareness relating to the importance of environmental issues and provide appropriate training, within the Environmental management systems.

This policy statement will be formally reviewed on an annual basis at the Management Review meeting.
